<p>What are some of your concerns?</p>	<p>Group 2: 5th ELA</p> <ul style="list-style-type: none"> • All Agree this is an effective concept! • What kind of money is involved? • Why not two K-5 buildings 	

- Why build a new building - why not stop taking transfer students?
 - Why is Keeping Motivated Staff/Compensation Plan not the #1 Goal?? (in the top 25 in state)
 - SG will become 4-5 building = we need to be sure to take the mentality of 4-5, NOT 6th grade mentality
 - How/Why did this whole idea come up?
- Group 3: 5th Math**
- All Agree this is an effective concept!
 - How does the staffing look in 6th grade academy - principal, related arts, teachers???
 - Worry about sharing related arts teachers with 6th grade academy - could impact teacher motivation - teacher retainment
- Group 4: 4th Math**
- All Agree this is an effective concept!
 - How would preschool be priced? Who would be able to attend (some state funding is headed our way - foresee reduced cost for our students)
 - Pre-K needs to be separate
 - Where does Social Studies fit into the pathways/curriculum??
- Group 5: 4th ELA**
- All Agree this is an effective concept!
 - Start and end time for school? (align K-5 more closely and BGMS and BGHS more closely)
 - What is the plan for getting more instructional support - need more instructional assistants
- Group 6: 6th ELA**
- All Agree this is an effective concept!
 - Licensing ????
 - If getting a masters, should you departmentalize to move to 6th grade - ELA, Reading
 - Curriculum alignment between 6 and 5th and 6th and 7th
 - Uniforms?
- Group 7: 6th Math**
- All Agree this is an effective concept!
 - Great because of difference in age
 - Master schedule - opens
 - Would Related Arts travel?
 - What are we going to do for support staff?
 - Would Stacy travel?
 - Could there be a Math/Reading Specialist at 6th grade and one at 4-5
